

Keep the good times charged.

Portable power-bank rental stations for bars, cafés, hotels, gyms, shopping centres and the places people love to be.

Host a station. Earn a share.

15%

of eligible rental revenue for your venue, plus your chosen advertising on the station screen.

Apply for a hosted placement without purchasing a machine. Placement and operating terms are subject to venue approval and a signed agreement.

Range images are supplied product imagery. Exact machine appearance and specification depend on the configuration quoted. Guide issued October 2026.

A boost for your customers.

A new reason to stay connected, with an extra income stream for your space.

Your 15% share

Proposed partner terms: 15% of rental revenue excluding VAT, refunds and chargebacks, before payment-processing fees. Payout timing and reporting are agreed in the venue contract.

Your choice of advertising

Use the machine's screen for your menus, promotions, events or brand messages. Screen-equipped hardware, content formats, scheduling and update arrangements are agreed before launch.

A station that fits your venue

Tell us your town, venue type, available space and usual footfall. We assess the placement and match the station format to the setting.

Clear responsibilities

Power, connectivity, access, installation, servicing and any site-specific costs are set out in writing. Hosted placements are subject to approval; returns are not guaranteed.

An example, not a forecast

£500 eligible monthly rental revenue × 15% = **£75 to your venue.**

Actual revenue depends on location, demand and the agreed rental tariff.

Want to own a machine instead? Purchase and operating terms are quoted separately. The hosted venue's 15% share does not automatically apply to purchased equipment.

Small footprint. Plenty of choice.

Browse screen, terminal and cabinet styles. Ask for the pictured option you prefer; configuration and availability are confirmed in your quote.

Compact screen stations

Straight and angled screen variants.

Payment-terminal options

Terminal-equipped variants pictured.

Desktop & larger counters

Small portable-format stations, desktop cabinets and larger countertop variants.

Compact guide price: £699

Screen guide price: £1,299

These prices are indicative starting packages and do not apply to every pictured configuration. Payment service availability is confirmed separately.

Find the right presence.

From slim towers to larger cabinets and modular stacks. Every pictured style can be discussed as part of your enquiry.

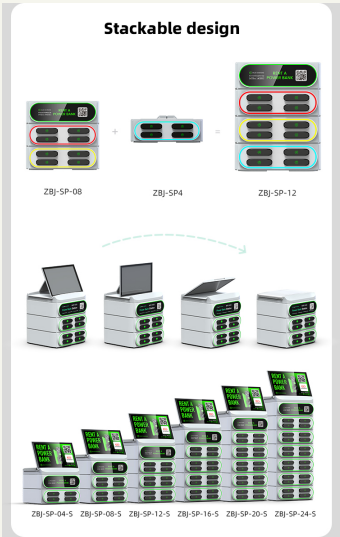

Floor-standing range

Slim white towers, upright display formats and larger floor cabinets.

For hotels, shopping centres and higher-footfall spaces.

Price by quotation

Stackable range

Modular configurations and display options.
Price by quotation.

With or without a screen

Compare the compact station with an advertising display and the screen-free version.

Use a screenshot or the image position to identify your preferred machine.

Make it your own.

Choose a hosted venue partnership or request a purchase quotation tailored to the exact station you want.

Counter Station

£699

Indicative compact starting package.

Screen Station

£1,299

Indicative screen-equipped starting package.

Floor-standing / multi-site

By quotation

Hardware, screen, capacity and delivery matched to your project.

Guide prices are subject to supplier confirmation and availability. Your written quote confirms the total payable, any VAT applicable, import costs, delivery, hardware and setup. Included power-bank quantities, screen dimensions, warranty and lead time are specified before ordering.

Software licensing, SIM/data, payment processing, maintenance and replacement banks may carry separate costs and will be itemised where required. Buying hardware does not automatically include an active rental platform or merchant account. Customer tariffs, deposits and lost-bank charges are agreed before launch.

Let's talk about your venue.
